GrandStay Staff SOP — Front Office & Housekeeping

GrandStay Hospitality Group — Internal/Guest Guide — 2025-10-24

Front Desk — Service Recovery Playbook

When service lapses occur (room not ready, maintenance delays), apologize sincerely, take ownership, and outline immediate remedies. Offer recovery tokens proportional to impact: dining credit, amenity kit, or points. Log incident in CRM with root cause and actions taken.

Concierge — Knowledge Capture

After assisting guests with bespoke itineraries, save routes, timing tips, and vendor reliability notes into the Concierge Wiki. Flag seasonal changes (festival traffic, museum closures) to update the RAG corpus weekly.

Housekeeping — Priority Protocol

Turnover prioritization: due-outs for early arrivals, VIPs, and families with infants. Validate amenities (cribs, hypoallergenic pillows). If delays exceed 20 minutes post-ETA, notify duty manager and front desk to offer alternatives (temporary lounge access, beverage vouchers).

Data Privacy & Sensitive Info

Never store payment details in plain text. Share minimal data in internal chats. Use guest initials for non-secure channels. Escalate suspicious data requests to the duty manager and InfoSec immediately.
